

CONVEYOR SYSTEMS

Beach Wagner

Engineering Consultants

Beach Wagner was specifically formed to meet and deliver the materials handling needs of Australian industry. With strong mechanical engineering analytical and design abilities, we are well placed to assist clients with their new system designs, ongoing maintenance concerns and failure analyses for the movement and handling of raw materials, semi-processed and completed products.

Our staff are experienced in design of conveyor systems for many and varied product types (see overleaf). This breadth of experience uniquely equips Beach Wagner to create genuinely inspired and client-tuned solutions to particular materials handling cases.

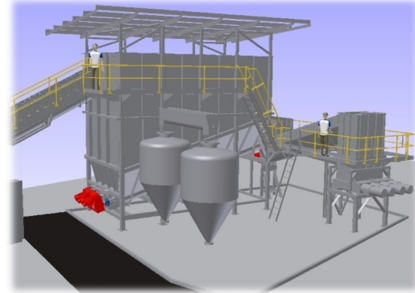

Beach Wagner has completed designs for bulk troughed belt conveyors, modular plastic belt conveyors screw conveyors, food grade belt conveyors, overhead chain conveyors, bucket elevators and supporting products like dry products blenders, paddle mixers, ribbon mixers, lifting beams and bins, hydraulic and pneumatic scissor lifts, mobile equipment, robotic grab manipulators, fixed and lifted work platforms, waste and storage bins and tanks, weir and dam gates and concrete moulds.

A selection of our completed projects in a variety of industries and locations is displayed on our website www.beachwagner.com.au

Engineering Your Materials Handling Solutions

CONVEYOR SYSTEMS

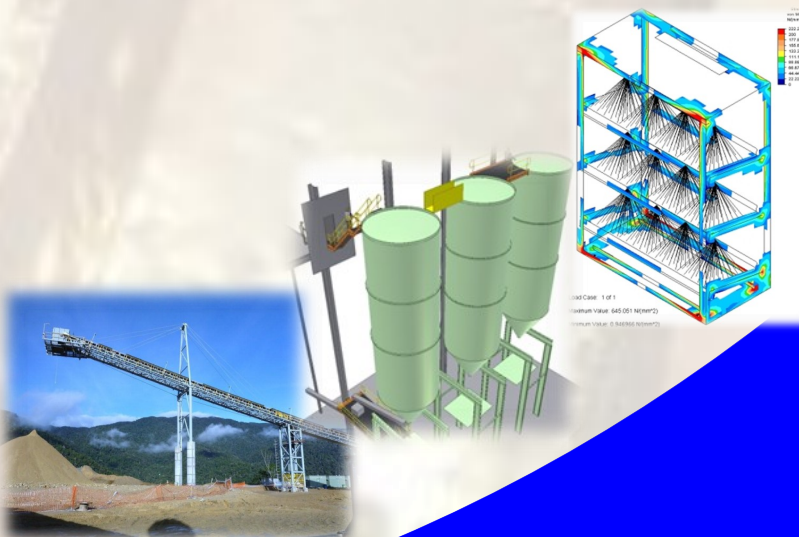

Conveyor Systems by Product Type

- fresh and frozen meats
- pharmaceutical powder
- baked food
- fresh food
- grain
- Bone meal
- sugar
- baked and green bricks
- fibre cement panels
- cement clinker
- cement bags
- asphalt
- road base and quarry aggregates
- cyanide
- processed and unprocessed coal
- Gold ore
- wax tubs
- zinc and lead
- scrap metal
- empty cartons
- gas cylinders
- aluminium cans

Beach Wagner Designs

Our design objectives of simplicity, safety, economy of manufacture, ease of installation, and efficiency of cleaning and maintenance will ensure a successful new system integration at your site.

Translate, transfer, rotate or lift your raw, semi-processed or finished product with Beach Wagner. We are ready to professionally engineer your materials handling solutions.
